Academic Integration

The Programs Abroad Office continues to work with departments on the comprehensive integration of study abroad programs and courses into the curricula. This is especially true for students in those fields who have traditionally not thought of study abroad as a viable option. The Programs Abroad Office conducted a survey of 2 Urban Studies and Planning majors who participated in study abroad programs over the past five years to better understand their academic integration needs.

Did you take courses in your major while studying abroad?

If yes, did you expect to receive credit in your major for courses taken abroad?
